Fast-Forward Family-Elinor Ochs 2013-03
Called “the most unusually voyeuristic anthropology study ever conducted” by the New York Times, this groundbreaking book provides an unprecedented glimpse into modern-day American families. In a study by the UCLA Sloan Center on Everyday Lives and Families, researchers tracked the daily lives of 32 dualworker middle class Los Angeles families between 2001 and 2004. The results are startling, and enlightening. Fast-Forward Family
shines light on a variety of issues that face American families: the differing stress levels among parents; the problem of excessive clutter in the American home; the importance (and decline) of the family meal; the vanishing boundaries that once separated work and home life; and the challenges for parents as they try to reconcile ideals regarding what it means to be a good parent, a good worker, and a good spouse. Though there are also moments of connection, affection, and care, it’s evident that life for 21st century working parents is frenetic, with extended work hours, children’s activities, chores, meals to prepare, errands to run, and bills to pay.

The Handbook of Discourse Analysis—Deborah Tannen 2018-02-28 The second edition of the highly successful Handbook of Discourse Analysis has been expanded and thoroughly updated to reflect the very latest research to have developed since the original publication, including new theoretical paradigms and discourse-analytic models, in an authoritative two-volume set. Twenty new chapters highlight emerging trends and the latest areas of research Contributions reflect the range, depth, and richness of current research in the field. Chapters are written by internationally-recognized leaders in their respective fields, constituting a Who’s Who of Discourse Analysis A vital resource for scholars and students in discourse studies as well as for researchers in related fields who seek authoritative overviews of discourse analytic issues, theories, and methods

Children Learn by Observing and Contributing to Family and Community Endeavors: A Cultural Paradigm— 2015-12-08 Children Learn by Observing and Contributing to Family and Community Endeavors, the latest in the Advances in Child Development and Behavior Series provides a major step forward in highlighting patterns and variability in the normative development of the everyday lives of children, expanding beyond the usual research
populations that have extensive Western schooling in common. The book documents the organization of children’s learning and social lives, especially among children whose families have historical roots in the Americas (North, Central, and South), where children traditionally are included and contribute to the activities of their families and communities, and where Western schooling is a recent foreign influence. The findings and theoretical arguments highlight a coherent picture of the importance of the development of children’s participation in ongoing activity as presented by authors with extensive experience living and working in such communities. Contains contributions from leading authorities in the field of child development and behavior. Presents a coherent picture of the importance of the development of children’s participation in ongoing activity. Provides a major step forward in highlighting patterns and variability in the normative development of the everyday lives of children, expanding beyond the usual research populations that have extensive Western schooling in common.

Informs and updates on all the latest developments in the field.

**Investigating Intimate Discourse** - Brian Clancy 2015-10-16

Intimate discourse – that between couples, family and close friends in private, non-professional settings – lies at the heart of our everyday linguistic experience. It creates and sustains our closest relationships. Using an innovative blend of the community of practice model with a corpus linguistic methodology, Brian Clancy expertly reveals the patterns that characterise the shared linguistic repertoire of intimates. Corpus methods such as frequency and concordance are thoroughly introduced, exemplified and systematically employed in order to operationalise the concept of the community of practice in relation to intimate discourse. A half-million-word corpus of intimate data collected in various settings throughout Ireland provides the data for insights into patterns such as intimates’ use of pronouns, vocatives, taboo language and pragmatic...
markers. The intimate linguistic repertoire that emerges is shown to facilitate the delicate balance between our instinctive desire to be involved in the lives of those closest to us while at the same time recognising their need for privacy and non-imposition. Investigating Intimate Discourse will primarily be of interest to postgraduate students and researchers working in the area, and to those working in related areas such as discourse analysis, corpus linguistics, sociolinguistics and pragmatics. Advanced undergraduates taking modules in those subjects will also find the book useful.

**Embodied Family Choreography**-Marjorie Harness Goodwin 2018-03-28 Embodied Family Choreography documents the lived and embodied practices employed to establish, maintain, and negotiate intimate social relationships in the family, examining forms of control, care, and creativity. Making use of the extensive video archives of family interaction in the US and Sweden, it presents the first investigation of how touch and interaction between bodies, in conjunction with talk, constitute a primary means of orchestrating activities through directives, thus creating rich relationships through supportive interchanges, and engaging in playful explorations of the world. Through close investigation of the sequential and simultaneous engagement of bodies interacting with other bodies, this book makes visible the important role touch plays in the context of contemporary Western middle class family life and is pioneering in its analysis of how the visual, aural, and haptic senses (usually analysed separately) mutually elaborate one another. As such, Embodied Family Choreography will appeal to scholars of child development, the sociology of the family and ethnomethodology and conversation analysis.

**The Handbook of Language, Gender, and Sexuality**-Susan Ehrlich 2014-03-19 Significantly expanded and updated, the second edition of The Handbook of Language, Gender and Sexuality brings together a team of the
leading specialists in the field to create a comprehensive overview of key historical themes and issues, along with methodologies and cutting-edge research topics. Examines the dynamic ways that women and men develop and manage gendered identities through their talk, presenting data and case studies from interactions in a range of social contexts and different communities. Substantially updated for the second edition, including a new introduction, 24 newly-commissioned chapters, ten updated chapters, and a comprehensive index. Includes new chapters on research in non-English speaking countries—such as language, gender, and popular culture; language and sexual identities; and language, gender, and socio-phonetics. New sections focus on key themes and issues in the field, such as methodological approaches to language and gender, incorporating new chapters on conversation analysis, critical discourse analysis, corpus linguistics, and variation theory. Provides unrivalled geographic coverage and an essential resource for a wide range of disciplines, from linguistics, psychology, sociology, and anthropology to communication and gender studies.

**The Design of Childhood**—Alexandra Lange
2018-06-12
From building blocks to city blocks, an eye-opening exploration of how children's playthings and physical surroundings affect their development. Parents obsess over their children's playdates, kindergarten curriculum, and every bump and bruise, but the toys, classrooms, playgrounds, and neighborhoods little ones engage with are just as important. These objects and spaces encode decades, even centuries of changing ideas about what makes for good child-rearing—and what does not. Do you choose wooden toys, or plastic, or, increasingly, digital? What do youngsters lose when seesaws are deemed too dangerous and slides are designed primarily for safety? How can the built environment help children cultivate self-reliance? In these debates, parents, educators, and kids...
themselves are often caught in the middle. Now, prominent design critic Alexandra Lange reveals the surprising histories behind the human-made elements of our children's pint-size landscape. Her fascinating investigation shows how the seemingly innocuous universe of stuff affects kids' behavior, values, and health, often in subtle ways. And she reveals how years of decisions by toymakers, architects, and urban planners have helped--and hindered--American youngsters' journeys toward independence. Seen through Lange's eyes, everything from the sandbox to the street becomes vibrant with buried meaning. The Design of Childhood will change the way you view your children's world--and your own.

**Pressure Cooker**-Sarah Bowen 2019-01-07 Food is at the center of national debates about how Americans live and the future of the planet. Not everyone agrees about how to reform our relationship to food, but one suggestion rises above the din: We need to get back in the kitchen. Amid concerns about rising rates of obesity and diabetes, unpronounceable ingredients, and the environmental footprint of industrial agriculture, food reformers implore parents to slow down, cook from scratch, and gather around the dinner table. Making food a priority, they argue, will lead to happier and healthier families. But is it really that simple? In this riveting and beautifully-written book, Sarah Bowen, Joslyn Brenton, and Sinikka Elliott take us into the kitchens of nine women to tell the complicated story of what it takes to feed a family today. All of these mothers love their children and want them to eat well. But their kitchens are not equal. From cockroach infestations and stretched budgets to picky eaters and conflicting nutrition advice, Pressure Cooker exposes how modern families struggle to confront high expectations and deep-seated inequalities around getting food on the table. Based on extensive interviews and field research in the homes and kitchens of a diverse group of American families, Pressure Cooker challenges the logic of the most popular foodie mantras of our time, showing how they miss the mark and
up the ante for parents and children. Romantic images of family meals are inviting, but they create a fiction that does little to fix the problems in the food system. The unforgettable stories in this book evocatively illustrate how class inequality, racism, sexism, and xenophobia converge at the dinner table. If we want a food system that is fair, equitable, and nourishing, we must look outside the kitchen for answers.

**Life at Home in the Twenty-First Century**
Jeanne E. Arnold 2012-12-31 Winner of the 2014 John Collier Jr. Award Winner of the Jo Anne Stolaroff Cotsen Prize Life at Home in the Twenty-First Century cross-cuts the ranks of important books on social history, consumerism, contemporary culture, the meaning of material culture, domestic architecture, and household ethnoarchaeology. It is a distant cousin of Material World and Hungry Planet in content and style, but represents a blend of rigorous science and photography that these books can claim. Using archaeological approaches to human material culture, this volume offers unprecedented access to the middle-class American home through the kaleidoscopic lens of no-limits photography and many kinds of never-before acquired data about how people actually live their lives at home. Based on a rigorous, nine-year project at UCLA, this book has appeal not only to scientists but also to all people who share intense curiosity about what goes on at home in their neighborhoods. Many who read the book will see their own lives mirrored in these pages and can reflect on how other people cope with their mountains of possessions and other daily challenges. Readers abroad will be equally fascinated by the contrasts between their own kinds of materialism and the typical American experience. The book will interest a range of designers, builders, and architects as well as scholars and students who research various facets of U.S. and global consumerism, cultural history, and economic history.

**Handing Down the Faith**
Christian Smith
2021-03-15 "This book is about how American religious parents approach the handing on of their religious practices and beliefs to their children. We know a lot about the importance of parents in faith transmission and factors that influence its effectiveness. But we know much less about the actual beliefs, feelings, and activities of the parents themselves when it comes to the intergenerational transmission of religious faith and practice"--

**We Have Never Been Middle Class**-Hadas Weiss 2019-10-29 Taking apart the ideology of the "middle class" Tidings of a shrinking middle class in one part of the world and its expansion in another absorb our attention, but seldom do we question the category itself. We Have Never Been Middle Class proposes that the middle class is an ideology. Tracing this ideology up to the age of financialization, it exposes the fallacy in the belief that we can all ascend or descend as a result of our aspirational and precautionary investments in property and education.

Ethnographic accounts from Germany, Israel, the USA and elsewhere illustrate how this belief orients us, in our private lives as much as in our politics, toward accumulation-enhancing yet self-undermining goals. This original meshing of anthropology and critical theory elucidates capitalism by way of its archetypal actors.

**Fast Forward 2**-Lou Anders 2010-03-19 When Fast Forward 1 debuted in February 2007, it marked the first major all-original, all-SF anthology series to appear in some time – and it was met with a huge outpouring of excitement and approbation from the science fiction community. No less than seven stories from Fast Forward 1 were chosen to be reprinted a total of nine times in the four major "Best of the Year" retrospective anthologies, a wonderful testament to the quality of contributions in our inaugural book. What’s more, Fast Forward 1 was hailed repeatedly as leading the charge in a return of original, unthemed anthologies series (several more have since appeared in our wake). Now the
critically-acclaimed, groundbreaking series continues, featuring all new stories from: Paul Cornell Kay Kenyon Chris Nakashima-Brown Nancy Kress Jack Skillingstead Cory Doctorow and Benjamin Rosenbaum (Hear the podcast.) Jack McDevitt Paul McAuley Mike Resnick and Pat Cadigan Ian McDonald Kristine Kathryn Rusch Karl Schroeder and Tobias S. Buckell Jeff Carlson Paolo Bacigalupi

**Handbook of Qualitative Organizational Research** - Kimberly D. Elsbach 2015-11-19 This handbook provides a comprehensive overview of state-of-the-art, innovative approaches to qualitative research for organizational scholars. Individual chapters in each area are written by experts in a variety of fields, who have contributed some of the most innovative studies themselves in recent years. An indispensable reference guide to anyone conducting high-impact organizational research, this handbook includes innovative approaches to research problems, data collection, data analysis and interpretation, and application of research findings. The book will be of interest to scholars and graduate students in a wide variety of disciplines, including anthropology, organizational behavior, organizational theory, social psychology, and sociology

**Adventures In Fast Forward** - Kathleen G. Nadeau 2013-04-15 Written in response to common questions posed by adults with ADD in the author's clinical practice - and for all adults with ADD, as well as those who care about them - this book is designed as a clear and practical guide for day-to-day life. The author's perspective is one of compassionate realism as she answers specific questions related to understanding and accommodating ADD whether making daily decisions or larger life choices.

**Children and Families in the Digital Age** - Elisabeth Gee 2017-11-06 Children and Families in the Digital Age offers a fresh, nuanced, and
empirically-based perspective on how families are using digital media to enhance learning, routines, and relationships. This powerful edited collection contributes to a growing body of work suggesting the importance of understanding how the consequences of digital media use are shaped by family culture, values, practices, and the larger social and economic contexts of families’ lives. Chapters offer case studies, real-life examples, and analyses of large-scale national survey data, and provide insights into previously unexplored topics such as the role of siblings in shaping the home media ecology.

Kid Food-Bettina Elias Siegel 2019-10-04 Most parents start out wanting to raise healthy eaters. Then the world intervenes. In Kid Food, nationally recognized writer and food advocate Bettina Elias Siegel explores one of the fundamental challenges of modern parenting: trying to raise healthy eaters in a society intent on pushing children in the opposite direction. Siegel dives deep into the many influences that make feeding children healthfully so difficult—from the prevailing belief that kids will only eat highly processed "kid food" to the near-constant barrage of "special treats." Written in the same engaging, relatable voice that has made Siegel's web site The Lunch Tray a trusted resource for almost a decade, Kid Food combines original reporting with the hard-won experiences of a mom to give parents a deeper understanding of the most common obstacles to feeding children well: - How the notion of "picky eating" undermines kids' diets from an early age-and how parents' anxieties about pickiness are stoked and exploited by industry marketing - Why school meals can still look like fast food, even after well-publicized federal reforms - Fact-twisting nutrition claims on grocery products, including how statements like "made with real fruit" can actually mean a product is less healthy - The aggressive marketing of junk food to even the youngest children, often through sophisticated digital techniques meant to bypass parents' oversight - Children's menus that teach kids all the wrong lessons about what "their" food looks
like - The troubling ways adults exploit kids' love of junk food—including to cover shortfalls in school budgets, control classroom behavior, and secure children's love. With expert advice, time-tested advocacy tips, and a trove of useful resources, Kid Food gives parents both the knowledge and the tools to navigate their children's unhealthy food landscape—and change it for the better.

**Fast Forward, Play, and Rewind**—Michael Oberman 2020-10-15 The Doors, James Brown, the Grateful Dead, the Sir Douglas Quintet, David Bowie—the list goes on... From 1967 to 1973, Michael Oberman interviewed more than three hundred top musical artists. Collected together for the first time, Fast Forward, Play and Rewind presents more than one hundred interviews Oberman conducted with the most important musical artists of the day. Along the way, Oberman touches on the influence of his brother, who interviewed the Beatles and other top artists from 1964 to 1967. He also recounts stories from his later career working for the major Warner-Elektra Atlantic recording company and producing concerts for Cellar Door Productions and managing recording artists. Want to know the true story of how David Bowie became Ziggy Stardust? That and dozens more true tales that might seem like fiction are waiting inside the pages of Fast Forward, Play and Rewind. Each short interview is an invitation for readers to relive (or live for the first time) one of the greatest periods in rock 'n' roll history.

**Feeding Children Inside and Outside the Home**—Vicki Harman 2018-10-26 This cross-disciplinary volume brings together diverse perspectives on children’s food occasions inside and outside of the home across different geographical locations. By unpacking mundane food occasions—from school dinners to domestic meals and from breakfast to snacks—Feeding Children Inside and Outside the Home shows the role of food in the everyday lives of children and adults around them. Investigating food occasions
at home, schools and in nurseries during weekdays and holidays, this book reveals how children, mothers, fathers, teachers and other adults involved in feeding children, understand, make sense of and navigate ideological discourses of parenting, health imperatives and policy interventions. Revealing the material and symbolic complexity of feeding children, and the role that parenting and healthy discourses play in shaping, perpetuating and transforming both feeding and eating, this volume shows how micro and macro aspects are at play in mundane and everyday practices of family life and education. This volume will be of great interested to a wide range of students and researchers interested in the sociology of family life, education, food studies and everyday consumption.

**Balancing the Big Stuff** - Miriam Liss
2014-08-07 This book considers the obstacles that prevent families from achieving true work-family balance. Clarifying what it means to be happy, and what it means to “have it all,” Miriam Liss and Holly Schiffrin illustrate how to achieve true contentment, outlining ways men and women can get more enjoyment and happiness both at home and the office.

**Fast Forward** - Judy Mercer 1997-06-01
Awakening bruised and bloody, with no memory, in a ransacked house, Ariel Gold begins a stubborn quest to reclaim her past, searching through a stranger's unknown life to find herself, but her investigation is leading her into the sights of a killer. Reprint. AB.

**Drop the Ball** - Tiffany Dufu 2017-02-14 A bold and inspiring memoir and manifesto from a renowned voice in the women's leadership movement who shows women how to cultivate the single skill they really need in order to thrive: the ability to let go. Once the poster girl for doing it all, after she had her first child, Tiffany Dufu struggled to accomplish everything she thought she needed to in order to succeed. Like
so many driven and talented women who have been brought up to believe that to have it all, they must do it all, Dufu began to feel that achieving her career and personal goals was an impossibility. Eventually, she discovered the solution: letting go. In Drop the Ball, Dufu recounts how she learned to reevaluate expectations, shrink her to-do list, and meaningfully engage the assistance of others—freeing the space she needed to flourish at work and to develop deeper, more meaningful relationships at home. Even though women are half the workforce, they still represent only eighteen per cent of the highest level leaders. The reasons are obvious: just as women reach middle management they are also starting families. Mounting responsibilities at work and home leave them with no bandwidth to do what will most lead to their success. Offering new perspective on why the women’s leadership movement has stalled, and packed with actionable advice, Tiffany Dufu’s Drop the Ball urges women to embrace imperfection, to expect less of themselves and more from others—only then can they focus on what they truly care about, devote the necessary energy to achieving their real goals, and create the type of rich, rewarding life we all desire.

Mothering, Education and Culture - Deborah Golden 2017-12-01 This book is an ethnographically-informed interview study of the ways in which middle-class mothers from three Israeli social-cultural groups – immigrants from the former Soviet Union, Palestinian Israelis and Jewish native-born Israelis – share and differ in their understandings of a ‘proper’ education for their children and of their role in ensuring this. The book highlights the importance of education in contemporary society, and argues that mothers’ modes of engagement in their children's education are formed at the junction of class, culture and social positioning. It examines how cultural models such as intensive mothering, parental anxiety, individualism, and ‘concerted cultivation’ play out in the lives of these mothers and their children, shaping different ways of
participating in the middle class. The book will be of interest to anthropologists and sociologists studying mothering, education, parenting, gender, class and culture, to readers curious about daily life in Israel, and to professionals working with families in a multicultural context.

Media, Family Interaction and the Digitalization of Childhood-Anja Riitta Lahikainen 2017-09-29 This is a first-class repository of new knowledge on how media and family routines intertwine in daily interactions. The multi-method approach reveals how varying forms of media affect the interaction between children and their parents. Avoiding criticism of these interactions, the contributors instead offer an impartial view of the natural occurrences in media-related family life.

Childhood and Education in the United States and Russia-Katerina Bodovski 2019-07-29 This book considers the place of education in childhood, and provides a cross-country and cross-cultural perspective on the importance of education in childhood - comparing experiences in the US and Russia. It conceptualizes the discussion in sociological theory, particularly theories pertaining to the sociology of education.

Context-Herbert L. Meiselman 2019-04-20 Context: The Effects of Environment on Product Design and Evaluation addresses the environment, or context, in which we consume products and the impact of context on choice and acceptability. The book explores what context is, how it influences design by specialists, and acceptance by consumers. Chapters discuss the basics of context, food and drink in context, testing a range of other products, and other contextual variables. Historically, research on context has been done in the laboratory and various natural locations, but rapid growth in other methods to study context, including evoked contexts, immersive contexts, virtual reality
contexts, and more have widened research possibilities. Appealing to the professional, academic and commercial markets, this book will be of interest to those who conduct research in product development and product testing, to those who study what controls product usage, including eating from the health perspective, and to those who make decisions about product and space development. Explores information on how context works and how to assess its influence on product decisions Discusses the basics of context, food and drink in context, and testing other products in context, including personal care products and home and workspace design Identifies variables that contribute to the contextual experience

Chinese Families Upside Down: Intergenerational Dynamics and Neo-Familism in the Early 21st Century - 2021-03-15 Chinese Families Upside Down offers the first systematic account of how intergenerational dependence is redefining the Chinese family and goes beyond the conventional model of filial piety to explore the rich, nuanced, and often unexpected new intergenerational dynamics.
**Research Handbook on the Sociology of the Family**-Norbert F. Schneider 2021-06-25
Exploring how family life has radically changed in recent decades, this comprehensive Research Handbook tracks the latest developments and trends in scholarly work on the family. With a particular focus on the European context, it addresses current debates and offers insights into key topics including: the division of housework, family forms and living arrangements, intergenerational relationships, partner choice, divorce and fertility behaviour.

**Thinking Home on the Move**-Paolo Boccagni 2020-08-10 Thinking Home on the Move is a powerful and in-depth look into what we as humans perceive as ‘home’. It presents an interdisciplinary conversation with leading scholars to illuminate the state-of-the-art and the ways ahead for researching home on the move and from the margins. It asks the question, what is home, and why do we need it?

**Critical Perspectives on Language and Kinship in Multilingual Families**-Lyn Wright 2020-09-17 Applying critical kinship perspectives to the study of multilingual families, this book foregrounds family formation processes, gender, and sexuality in examinations of language use. Focusing on historically marginalized families (such as single parent, adoptive, and LGBTQ+), the analyses draw on data from private and public spheres including interviews and recorded interactions in homes, as well as memoirs, documentaries, news media, and even comedy. Lyn Wright addresses questions such as why single parents might be better at raising bilingual children, how multilingualism plays a role in constructing shared histories in adoptive families, and what translingual resources allow LGBTQ+ families to negotiate gender roles and family relationships. In addition, she examines the construction of monolingual, nuclear family norms in public discourse that potentially constrain families' everyday multilingual identities. Integrating related fields of family
discourse, family language socialization, and family language policy unifies ways of understanding the intersections of kinship and language. The analyses in this book provide insight into multilingual family experiences, children's language development, and societal level language maintenance and shift.

**Children, Childhood, and Everyday Life**
Mariane Hedegaard 2018-02-01 Traditional work on child development is often based on notions of an individual and decontextualized child. This volume involves a contribution to the rethinking of development: it presents a number of situated studies where children’s perspectives are documented through their interaction with others in situated practices, in family life and school and across social contexts. This volume offers a toolkit for analyzing children’s perspectives and participation over time. In prior work, the interview has often been seen as the cardinal method – or the only method – for studying children’s perspectives. This anthology includes vignettes and case studies, with descriptions of children’s actions in situated activity settings as well as illustrative transcripts from video-recorded social interaction. It opens up toward a broader view of ‘development’ in that it documents how children’s and youths’ perspectives and agency can be studied through their ways of interacting (or not interacting) in everyday life. One aspect of this is their verbal and nonverbal participation in family life and the social landscape of schools. Another feature is that it involves several chapters that problematize ‘impaired practices’ and dilemmas in the teaching of children with dysfunctions. The book as a whole is rich in empirical ethnographic examples that highlight life trajectories in and across social contexts. Moreover, it features interview data and narratives that include children’s and youths’ own reflections on their lives and experiences of the social demands of family and school. This includes their own thoughts on being or becoming members of local communities.
Mexican American Children and Families-Yvonne M. Caldera 2014-11-27 Offering new insight on Mexican American culture and families, this book provides an interdisciplinary examination of this growing population. Contributors from psychology, education, health, and social science review recent quantitative and qualitative literature on Mexican Americans. Using current theories, the cultural, social, interpersonal and intra-personal experiences that contribute to the well-being and adjustment of Mexican Americans are examined. As such the book serves as a seminal guide to those interested in moving away from the dominant deficit model that characterizes the majority of the literature. To ensure consistency and accessibility, each chapter features an introduction, literature review, summary, future directions and challenges, policy implications, and references. Contributors review current education and health care policies and research that impact this population with the hope of guiding the development of policies and interventions that support well-being and adjustment. Highlights include a: -Normative and strength based perspective on Mexican American families. -Generational perspective that is common among Mexican American families. -Multidisciplinary review of the values, beliefs, practices, identities, educational resilience, and physical and mental health issues for a deeper understanding of this growing population. -Focus specifically on Latinos of Mexican Origin with a highlight on the cultural, social, interpersonal, and intrapersonal experiences that contribute to well-being and adjustment. -Empirically grounded resource to guide the development of public policy and intervention approaches that support the well-being of families of Mexican origin. Part I provides an historical and demographic overview of Mexican Origin peoples in the US, the development of ethnic identity in these children, and theories for conducting research with this population. Part II highlights the family context in which Mexican-Origin children develop including characteristics that promote school readiness, values that promote successful co-
parenting, and how Mexican American children learn by observing and pitching-in. The section concludes with a discussion of the concept of space and its role on the socialization of Mexican American children. The issues and challenges that Mexican American children face as they move through the US school system are examined in Part III. These chapters highlight the role that language development and bilingualism play in school success, the ways in which teachers can support the learning and development of these children, and the impact of parents’ involvement in children’s schooling. Part IV examines mental health care systems including ways in which providers can improve participation and the quality of services, the factors that influence Mexican American parenting and the role these play in their children’s mental health, and the impact of acculturation and enculturation in the mental health of adolescents. Physical health is the focus of Part V. Here the Hispanic Paradox, the occurrence of better health outcomes in immigrants compared to their U.S. born counterparts, is explored. These chapters attempt to disentangle the role that culture plays in the paradox, the benefits associated with traditional Mexican dietary practices and ways in which nutritionists can utilize these to promote healthier eating, informal health care practices that are traditional in the Mexican heritage and the factors that influence their usage, and the role of culture and behavior on physical health including maternal and infant health. The book concludes with recommendations for future directions for research. Ideal for advanced students, researchers, policy makers, and practitioners in human development and family studies, psychology, sociology, social work, education, and community health interested in Mexican Americans, this book serves as an excellent resource in graduate or advanced undergraduate courses on Mexican American culture, (Latin) Mexican American/Chicano or cross-cultural studies, cross cultural development, diversity, or race and ethnicity. Knowledge of social science or developmental theory is not assumed.
Language Socialization in Chinese Diasporas - Hsin-fu Chiu 2021-09-17 The monograph provides ethnographically informed analyses of indigenous kin interactions in three Chinese diasporic households in the county of Los Angeles, California, U.S.A. Drawing upon the approach that regards talk as a form of social practice, the book demonstrates different ways in which kin relationships are indigenously orchestrated by foreign Chinese parents and their American-born children. Micro-analytically, social actions of membership categorization, attribution, deference, compliance, commands, and story-telling that unfold in kin interactions are foregrounded as key language devices to discuss ways in which epistemic asymmetry, power hierarchy, and harmony in kin relations are constructed or deconstructed in Chinese diasporic social lives. By way of illustration, the monograph, macro-analytically, speaks to the cultural stereotype of Chinese immigrant/foreign parents’ style of parenting when they pass on the traditional Confucian ideologies in kin interaction. This book can be a useful reference textbook for graduate courses that address the dynamic intricacy among language, culture, and society.

Time, Freedom and the Self - Michelle Shir-Wise 2019-04-10 While abundant research has investigated time use, much less attention has been given to the cultural meanings attached to free time and what these may express with regard to conceptions of freedom and the self. In an attempt to fill this gap, Michelle Shir-Wise examines not only what people do in their free time, but also how they perceive, interpret and experience it, and in what way it relates to notions of happiness, freedom and the ideal self. Time, Freedom and the Self draws on contemporary theoretical debates concerning the relation between discourse, cultural repertoires, subjective meaning and agency, as well as literature around the sociology of leisure, to inform a unique interpretation of free time.
(“disciplined freedom”), developed in the light of questionnaires and in-depth interviews with middle-class, middle-aged participants in suburban Israel.

**Shifting Visions**-Allyson Jule 2015-02-05 This collection of studies explores recent research in the area of gender and language use experienced around the world. Featuring an interdisciplinary and global approach, the contributors demonstrate how focus on gender and language creates the lived experience. The studies in this book use gender and language to analyze a broad range of topics including religion, politics, education and sexuality. Contributions include the use of language of a new female bishop in Canada, hetronormativity in language use in Croatia, women’s magazines in Japan, and the electoral code in Cameroon. Using critical/feminist discourse analysis, the chapters represent scholarship from Britain, Europe, North America, Asia and Africa. Readers in applied linguistics, sociology, women’s studies and education who are interested in language and its power in creating the lived experience will find this book full of intriguing and illuminating connections.

**The Handbook of Narrative Analysis**-Anna De Fina 2015-04-08 Featuring contributions from leading scholars in the field, The Handbook of Narrative Analysis is the first comprehensive collection of sociolinguistic scholarship on narrative analysis to be published. Organized thematically to provide an accessible guide for how to engage with narrative without prescribing a rigid analytic framework Represents established modes of narrative analysis juxtaposed with innovative new methods for conducting narrative research Includes coverage of the latest advances in narrative analysis, from work on social media to small stories research Introduces and exemplifies a practice-based approach to narrative analysis that separates narrative from text so as to broaden the field beyond the printed page.

2020-05-19 The Routledge Companion to Interdisciplinary Studies in Singing, Volume II: Education examines the many methods and motivations for vocal pedagogy, promoting singing not just as an art form arising from the musical instrument found within every individual but also as a means of communication with social, psychological, and didactic functions. Presenting research from myriad fields of study beyond music—including psychology, education, sociology, computer science, linguistics, physiology, and neuroscience—the contributors address singing in three parts: Learning to Sing Naturally, Formal Teaching of Singing Using Singing to Teach. In 2009, the Social Sciences and Humanities Research Council of Canada funded a seven-year major collaborative research initiative known as Advancing Interdisciplinary Research in Singing (AIRS). Together, global researchers from a broad range of disciplines addressed three challenging questions: How does singing develop in every human being? How should singing be taught and used to teach? How does singing impact wellbeing? Across three volumes, The Routledge Companion to Interdisciplinary Studies in Singing consolidates the findings of each of these three questions, defining the current state of theory and research in the field. Volume II: Education focuses on the second question and offers an invaluable resource for anyone who identifies as a singer, wishes to become a singer, works with singers, or is interested in the application of singing for the purposes of education.

Deconstructing Developmental Psychology - Erica Burman 2016-11-22

In this completely revised and updated edition, Deconstructing Developmental Psychology interrogates the assumptions and practices surrounding the psychology of child development, providing a critical evaluation of the role and contribution of
developmental psychology within social practice. Since the second edition was published, there have been many major changes. This book addresses how shifts in advanced capitalism have produced new understandings of children, and a new (and more punitive) range of institutional responses to children. It engages with the paradoxes of childhood in an era when young adults are increasingly economically dependent on their families, and in a political context of heightened insecurity. The new edition includes an updated review of developments in psychological theory (in attachment, evolutionary psychology, theory of mind, cultural-historical approaches), as well as updating and reflecting upon the changed focus on fathers and fathering. It offers new perspectives on the connections between Piaget and Vygotsky and now connects much more closely with discussions from the sociology of childhood and critical educational research. Coverage has been expanded to include more material on child rights debates, and a new chapter addresses practice dilemmas around child protection, which engages even more with the "raced" and gendered effects of current policies involving children. This engaging and accessible text provides key resources to inform better professional practice in social work, education and health contexts. It offers critical insights into the politics and procedures that have shaped developmental psychological knowledge. It will be essential reading for anyone working with children, or concerned with policies around children and families. It was also be of interest to students at undergraduate and postgraduate levels across a range of professional and practitioner groups, as well as parents and policy makers.

**Domestic Economies**

Susanna Rosenbaum

2017-11-03 In Domestic Economies, Susanna Rosenbaum examines how two groups of women—Mexican and Central American domestic workers and the predominantly white, middle-class women who employ them—seek to achieve the "American Dream." By juxtaposing their understandings and experiences, she illustrates
how immigrant and native-born women strive to reach that ideal, how each group is indispensable to the other's quest, and what a vital role reproductive labor plays in this pursuit. Through in-depth ethnographic research with these women at work, at home, and in the urban spaces of Los Angeles, Rosenbaum positions domestic service as an intimate relationship that reveals two versions of female personhood. Throughout, Rosenbaum underscores the extent to which the ideology of the American Dream is racialized and gendered, exposing how the struggle for personal worth and social recognition is shaped at the intersection of motherhood and paid employment.

Fast Forward - Melanne Verveer 2015-09-15
Learn how some of the world's most inspiring women are using their growing economic power to create success and meaning in their lives while building a better world... and how you can too. Important conversations about leaning in, work/life balance and empowering women and girls around the world have energized a generation of women. Fast Forward, by two women leaders whose experience spans corporate America, public service, and global diplomacy, takes the next step. Through interviews with a network of more than seventy trailblazing women, Fast Forward shows women how to accelerate their growing economic power and combine it with purpose to find both success and meaning in their lives. Companies, countries, and organizations the world over are waking up to today's new reality. Women control the lion's share of purchasing power and are increasingly essential to competitiveness. The age of women's transformative economic influence has finally arrived, and women are using their power for purpose, redefining what power and success mean in the process. Through clear, practical advice and personal stories of women around the world -- including Hillary Clinton, Geena Davis, Christine Lagarde, and Diane von Furstenberg -- Fast Forward shows every woman how to know her power, find her purpose, and connect with others to achieve her life's goals. Advance praise
for Fast Forward: "Fast Forward shows us how leaders at every level can use their power and purpose to help more and more women achieve their dreams for a better life." --Hillary Rodham Clinton "We are all capable of great things, even world-changing things, if we take inspiration from others and join together to get it done. We are witnessing an awakening to the justice of civil rights for women in our time. You can feel it is imminent, and it will change the world when it is accomplished. Here are stories of a few women who have dared to imagine the day, and worked to make it happen. Let them inspire you." --Meryl Streep, actor and activist "A life filled with purpose is the greatest gift we can give to ourselves - and to others. Fast Forward shows women how to lead lives of purpose and meaning, so that they, and our world, can thrive." --Arianna Huffington, co-founder and editor-in-chief, Huffington Post "As I have travelled the world, I've seen the incredible strength and resilience of women everywhere, working at every level. If there was ever a doubt that our moment is now, this book dispels it. Fast Forward shows every woman how she can empower herself and her community, and why all of us will be better for it. Women are the growing force for progress in the 21st century." --Madeleine Albright, former Secretary of State "What is life without a sense of purpose? Any woman who's asked herself this question must read Fast Forward, filled with inspiring stories of women who've achieved power in their own lives and used it to make a difference for others, especially other women and girls." --Maria Shriver, author and journalist "The stories in this inspirational book serve as a powerful reminder that, with the right support, women can become an unstoppable force in their communities and economies. It is a rousing call to action for anyone who cares about creating a more equal world. Unleashing the full potential of women is not an option - it is an imperative." --Cherie Blair, founder, Cherie Blair Foundation for Women "I love this book. It tells the stories of ingenious women who took the circumstances around them and created successful companies and purpose in their lives, while at the same time recognizing
their own power to lift other women up, supporting both economic growth and social progress all over the world. It's an inspiring wake-up call to action, and once you're fired up, longing to find your own power and potential, it gives you a tool kit of information as to how you can begin. Brilliant." --Sally Field, actor and activist "Fast Forward gives all of us hope through the inspiring examples of pioneering women in global leadership, public service, and the corporate world - a path forged by Melanne Verveer since she helped Hillary Clinton transform the concept of women's rights in Beijing in 1995. Verveer and co-author Kim Azzarelli share their practical experience with new insights into how we can all lean even further forward. A must read for women - and men - who believe strong, educated women and girls are the key to advancing societies." --Andrea Mitchell, Chief Foreign Affairs Correspondent, NBC News "The stories of the remarkable women chronicled in Fast Forward are both inspiring and instructive, making it must-read for anyone interested in leading successfully with purpose in the 21st century. Fast Forward is also a reminder that progress and gender parity are inextricably linked and that if we want a society that operates at its best, we have to work for both." --Ajay Banga, CEO, MasterCard "In Fast Forward, we are reminded why Melanne Verveer and Kim Azzarelli are two leading 'sheroes' of the global women's movement. The book is chock-full of wise and clever advice for women and men committed to empowering women to reach their full potential. You will be inspired by their profiles of determined women of resilience, grit and passion to change the world. Brava!" --Darren Walker, president, Ford Foundation "A durable contribution to the continued efforts to effect change for women." --Kirkus Reviews "[An] empowering work about women's valuable contributions to the global economy...An inspiring foreword by Hillary Clinton bolsters the authors' message that women, working together, can accomplish anything." --Publishers Weekly
